Document Purpose:

The purpose of this document is to present the use case specification of 'View Saved Schedule' use case.

Target Audience:

Evaluators and users.

Revision Control*History Revision:*

Revision Date	Person Responsible	Version Number	Modification
09/29/16	Robelle Silverio	1.0	Specified purpose, target audience, use case name, use case precondition, flow of events (scenarios along with its description). Added activity diagram.
9/29/16	Sharleen Joy Go	1.1	Added use case description.

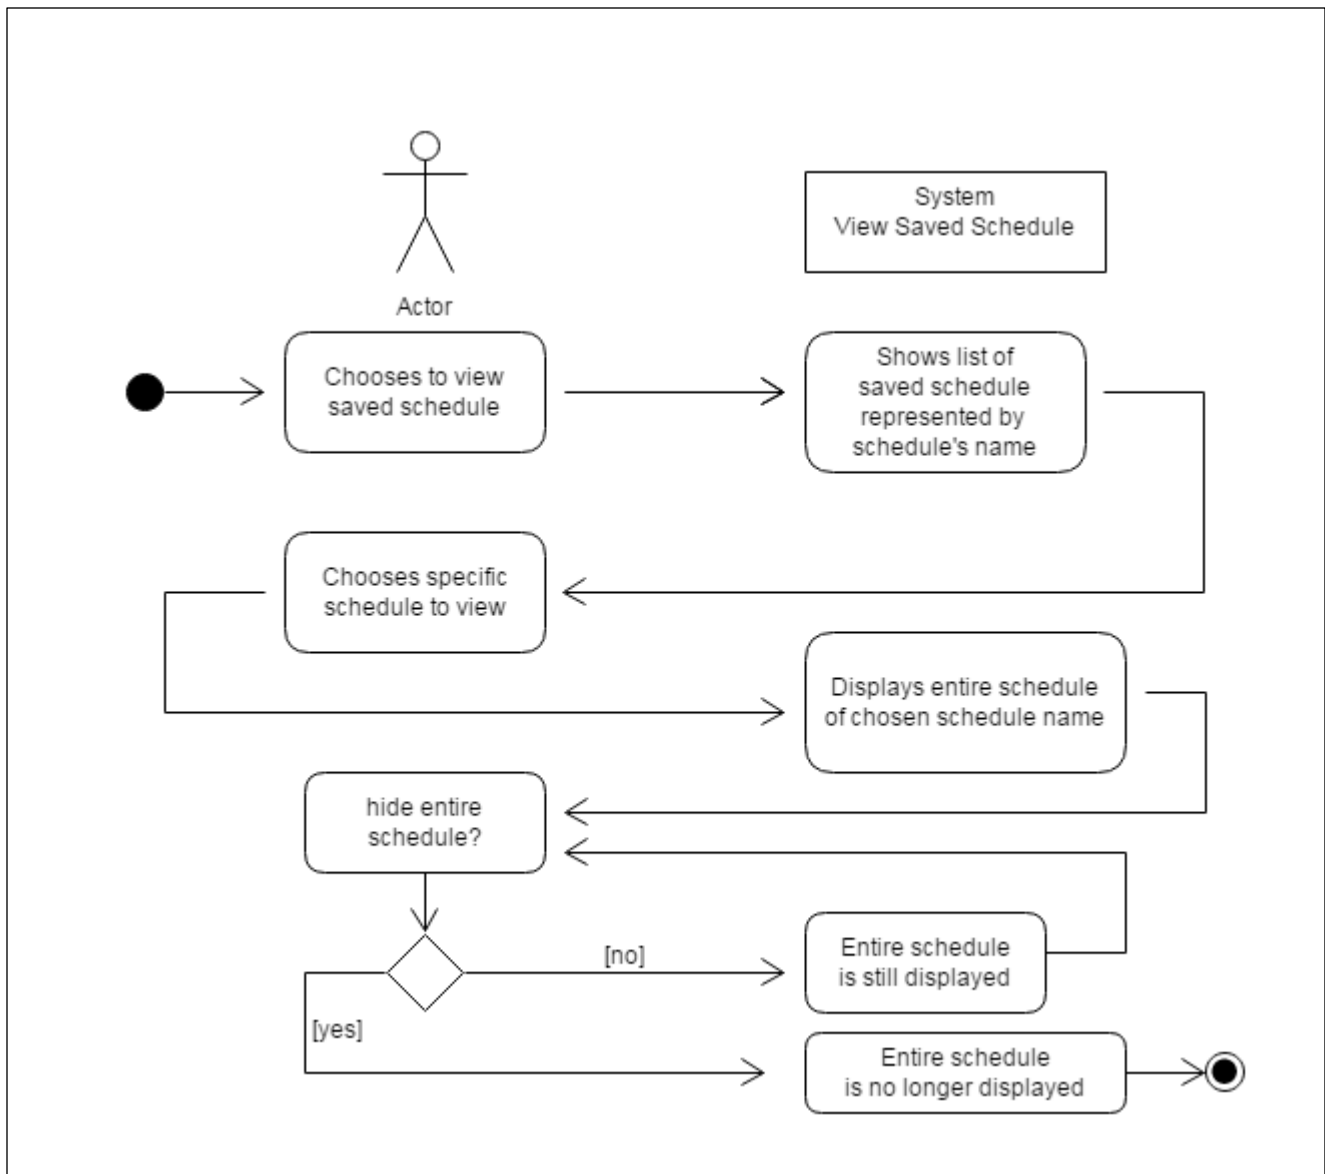

Use-Case Name: Use-Case 2.3 View Saved Schedule

Description: This use-case will allow the Busy Man to view any of his saved schedules. The saved schedules' names would be listed and the Busy Man may choose to view any of them. The chosen schedule will be displayed in the same manner as the View Current Schedule use-case displays the current schedule.

Preconditions: At least one saved task schedule is existing.

Flow of Events:

Scenario Name	Description
Scenario 1 (Basic Flow) Busy Man chose to view saved schedule	1. The Busy Man chose the option of viewing saved schedule.
Scenario 2 A list of saved schedule will be shown	1. A list of schedule saved will be shown, represented by the name of a particular schedule.
Scenario 3 Busy Man will choose only one schedule to view	1. Busy Man will now decide which among of the listed saved schedule to display.
Scenario 4 Entire schedule of the chosen schedule will be viewed	1. The entire schedule is shown. 2. Each block could be a block with task title (a task for that day) or a free task block (no task assigned) which corresponds with a specific time range. 3. Uses military time. 4. One day means 12:00 to 23:59.
Scenario 5 Busy Man closes displayed schedule	1. Busy Man could decide if he/she wanted to close the displayed schedule. 2. If Busy Man closed it, the schedule for the entire day is no longer displayed.

Activity Diagram of the flow of events:

Post Condition: None

Relationship: None

Special Requirements: None
